

THE ANGELINE

love summer
the story...

The Angeline is named after Angeline Falls located in King County, Washington. Flowing from the outlet of Angeline Lake, this perennial waterfall plunges from a height of 450 feet and is more than 120 feet wide. Love summer? Hike to a waterfall and relax in the great outdoors!

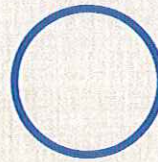

Just as you love a summer hike to see a waterfall, you will also love to swim in your own Angeline Above Ground Pool from Blue Cascade! The Angeline aluminum pool is able to handle inclement weather, is a rust-free alternative to steel pools, and is a long-term value at a reasonable price. The aluminum pool wall is lighter in weight when compared to steel walls. Every Angeline pool is "Made in the USA", features a 50 Year Limited Warranty with 3 Years Full Coverage, and a Vinyl Works deluxe pool liner—also manufactured in the United States. Get outdoors and into your Angeline pool, and love summer swimming for many years to come!
